

## 45°/VETRINA— RON GILAD 2013

1—  
2

A showcase designed to display and contain precious objects and books. Geometrically rotating surfaces that create 45° smoothed edges achieved by using a metal joint onto which aluminum profiles are hooked, veneered with precious wood types. The opening is totally invisible with the exception of a small key on the lateral profile. The result is a transparent solid that invites the gaze to linger on its contents.

### FEATURES

Showcase made of wood veneered aluminium profiles, available in two versions: with or without door. The door is always equipped with lock and always opens to the right (DX).

### DATASHEET

REGISTERED  
DESIGN

XII.2014
